For two-letter codes and other abbreviations, refer to the "Guid-
ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: PEPTIDES AND THERAPEUTIC USES THEREOF

(57) Abstract: Conformationally constrained peptides that mimic BH3-only proteins, compositions containing them and their use in the regulation of cell death are disclosed. The conformationally constrained peptides are capable of binding to and neutralising pro-survival Bcl-2 proteins. Processes for preparing the conformationally constrained peptides and their use in the treatment and/or prophylaxis of diseases or conditions associated with deregulation of cell death are also disclosed.
